SUMMARY

Experienced in Service Delivery optimization in Managed Services, Application Sustenance and Product Evolution, highly skilled in ITIL, DevOps and AGILE methodologies. Self-starter with a passion for learning.

EXPERIENCE

SERVICE DELIVERY MANAGER; MANAGED SERVICES

Kaleris **May 13th, 2024 - November 13th, 2025, Guadalajara, Jalisco**

- Led **end-to-end Service Delivery** for Navis Terminal Operations System (TOS) customers for AMERICAS region within the Managed Services division, ensuring SLA adherence and high customer satisfaction.
- Contributed directly to approximately **50% of the division's 40% revenue growth over 19 months** through strategic customer retention, account expansion, and upselling of Navis services.
- Led **strategic service delivery transformation** initiatives, leveraging process standardization and automation to enhance efficiency, elevate service quality, and lower delivery costs.
- Managed cross-functional teams, driving performance, resource strategy, team health and continuous improvement.
- Led pilot service programs to expand scope, **validate service maturity**, and unlock additional revenue opportunities.
- Initiated and executed internal programs to enhance cross-team visibility, reporting transparency, and collaboration across stakeholders.
- Led successful go-live execution for greenfield projects, ensuring smooth transition from implementation to operations.

TECHNOLOGY DIRECTOR; PRODUCT EVOLUTION

Wizeline **September 23rd, 2019 - July 14th, 2023, Guadalajara, Jalisco**

- Owned full P&L for the Product Evolution vertical, **scaling revenue to $7M+** through strategic growth, scope expansion, and operational excellence.
- Strengthened market positioning and new business acquisition by partnering with Marketing and Pre-Sales, while driving **ITSM governance and Agile delivery excellence** to improve service quality and efficiency.
- Led delivery optimization, resource strategy, and executive stakeholder engagement, ensuring profitability, customer satisfaction, and alignment with company OKRs.
- Drove vertical maturity and company-wide transformation initiatives in collaboration with Technology Directors and C-suite leadership.

INCIDENT, PROBLEM AND CHANGE MANAGER

HCL Technologies Limited **August 4th, 2016 - December 17th, 2018, Noida, India**

- Ensured high availability of client infrastructure through effective **Major Incident, Problem, and Change Management,** driving SLA adherence and reducing recurring incidents.
- Strengthened operational resilience by collaborating across Configuration, Capacity, and DR functions while maintaining transparent stakeholder reporting.
- Led ServiceNow migration from BMC Remedy and supported monitoring tool transition from on-prem to cloud, improving scalability and efficiency.
- Drove automation initiatives to streamline workflows, enhance service quality, and reduce turnaround time.

INCIDENT COORDINATOR

Accenture Services **July 29th, 2013 - November 10th, 2015, Gurgaon, India**

- Provided Level 2 (L2) support for client applications on SQL platforms, troubleshooting complex issues and ensuring timely resolution.
- Supported local data center operations through infrastructure troubleshooting and SolarWinds-based monitoring, ensuring high system availability.
- Promoted to Incident Coordinator, leading incident management efforts, driving SLA adherence, and coordinating cross-functional teams to minimize service impact.
- Contributed to Six Sigma initiatives aimed at reducing incident resolution time and improving operational efficiency.

CLIENT TECHNICAL SR. SUPPORT ASSOCIATE

Dell International Services India Pvt. Ltd. **September 19th, 2011 – July 20th, 2013, Gurgaon, India**

- Provided hardware and software troubleshooting support to Dell US customers, ensuring timely issue resolution and high customer satisfaction across Dell product lines.
- Identified customer needs and successfully upsold Dell-recommended software solutions and service offerings, contributing to revenue growth.
- Promoted to Senior Engineer in recognition of performance; mentored and trained peers and new team members to enhance technical capability and team productivity.

TECHNICAL SUPPORT OFFICER

HCL Technologies Ltd. **July 19th, 2010 - September 4th, 2011, Noida, India**

- Provided technical support to UK telecom customers, diagnosing and resolving broadband connectivity issues to ensure uninterrupted service.
- Assisted customers in resolving billing-related issues, ensuring accurate account reconciliation and improved customer satisfaction.
- Completed specialized language and cross-cultural communication training to effectively support both U.S. and U.K. customers.
